Questions/Answers

Q 1) I hereby affirm that I have viewed the class "Adaptive Education " in its entirety. I have already or will shortly complete 1 to 2 hours of self study, research, reading, reflection and/or application of the concepts/skills presented using the AIU online library or other mediums.

A 1) Yes

Q 2) Provide a short summary of the concepts or topics you learned about today" (minimum 300 characters)

A 2) I learned that Dr. Maria Montessori was the first female physician in Italy, an achievement that shaped her approach to education. Through her medical work, she observed that children possess an innate drive to learn, and a natural curiosity that guides their development. She believed that education should not be about filling children with facts, but about nurturing their inner desire to explore, discover, and understand.

Q 3) What is the most important concept(s) that you gained for today's Live Class? (minimum 300 characters)

A 3) Montessori education was created to provide an environment where children can learn independently, joyfully, and most importantly, at their own pace. At this core, the Montessori approach is designed to educate the whole child, offering learning experiences that support intellectual, physical, social, and emotional development. Rather than focusing solely on academic achievement, Montessori nurtures curiosity, confidence, and a deep love of learning, allowing each student to grow in a way that honors their unique strengths and natural rhythm.

Q 4) How would you apply what you learn today to improve your life of work? (minimum 300 characters)

A 4) I believe that in our classroom, we are actively applying the Montessori method. Our approach is to make learning engaging, creative, and meaningful, so that each individual student can develop their own unique way of learning and thinking. By giving children the freedom to explore at their own pace, we honor their natural curiosity and support their growth as independent, confident learners.
